Background Information

The original version of GPAQ was developed at the National Primary Care Research and Development Centre (NPCRDC) in Manchester and was widely used in UK general practice as part of the QOF for the nGMS. NPCRDC has now closed and administration has moved to Cambridge University.

GPAQ has been widely used in the UK and validated over a number of years. A new beta version of GPAQ is now available to encompass Direct Enhanced Services (DES) for Patient Participation through local surveys.

A small number of questions in GPAQ are designed to be identical to the 2011/2012 version of the national GP Patient Survey which will continue to run. This will enable practices to benchmark themselves against local and national scores.

Where available, InTime Data have listed the GPPS National scores alongside the GP / Practice GPAQ score.

Calculation of results for each question

For questions where patients have been asked to rate your services, their responses are transformed to a scale of 0 to 100 of one mark. If you are rated as "Excellent" or "Very Good" (where these are the top answers) then you will have gained 100% of 1 mark. The scaling is determined by the number of options available for each answer but always ignores answers such as "don't know" or "does not apply" etc.

Three choice questions have marks of 100, 50 and 0 percent.

Four choice questions have marks of 100, 66, 33 and 0 percent.

Five choice questions have marks of 100, 75, 50, 25, and 0 percent.

Six choice questions have marks of 100, 80, 60, 40, 20 and 0 percent.

Your score is calculated by multiplying appropriate scale rating (0 to 100) by the number of patients who awarded you that point on the scale. This figure is shown in brackets after each category. This is done for every point on the scale.

The total is calculated by adding all the subtotals and divided by the number of respondents to that question, ignoring all non-responders, including "don't know" etc. In this way you score is not affected by people who do not

Rating	Patients	Percentage	Sub-Total
Very poor	2	0	0
Poor	0	20	0
Fair	9	40	360
Good	30	60	1,800
Very good	53	80	4,240
Excellent	53	100	5,300
Total	147		11,700
Score		79.59 (79.6)	

A perfect score is 100%

Q1. About Your Visit to the GP Today
How good was the GP at: Putting you at ease?

Comments

Glad Hamd has opened all staff are very good

over all we are very happy with our Doctor Surgery

Clean, tidy girls are welcoming and polite

I find the practice & doctors great at understanding me & my illness, which for me is a relief, I find it easy to explain my problems, which they help the best they can

I am satisfied about my GP but it takes too long to book an appointment and other thing we got appointment time still have to sit and wait to see GP. These 2 things need to be sorted. Thanks

The practice provide outstanding customer service. I am qualified and teach customer service. I personally will give a 5 star rating EXCELLENT listening skill. The tone and language used to communicate is very professional and caring to everyone

The only thing I would say is it may be easier if appointments were booked 5-6 pm the day before for next day and have emergency for the morning

Very outstanding G.P.

Professional service all the time

Overall very satisfactory

It gets difficult to get through for appointments. Sometimes it takes 2, 3 days to get through, or the lines disconnects. I think there should be a bit extra telephone lines for the patients to get through

Absolutley amazing doctors - very helpful. Overall outstanding service

Excellent staff. GP understands and is considerate. No problems getting through via phone. Will definitely recommend

I'm happy with my surgery. I do recommend to loads of people
